

Willie Polanco

Willie Polanco did not traveled to Europe and elsewhere only to play on the world's stage.

He travelled as emissary to the USHA to promote the game of handball, especially 1-wall. In England, Canada, Spain, Holland, and more Willie presented a flavor of the American game. At this writing he is the USHA Northeast Regional Director. His character and attitudes made him the consummate representative for handball. His impressive achievements in 1-wall play added the finishing touch to his handball resume.
