

# Tom Vitale – NGM

Tom was more than 55 years of age when he entered his first National 1-Wall Masters Tournament. Very rapidly he developed into one of the most feared 50 year old players.

He continued and improved that reputation into his 60's and 70's as well, becoming one of the best 1-wall masters singles players ever! Many of his National Masters Championships were earned after he had half a lung removed because of exposure to asbestos as a young man. Tom's weapons included excellent power, enormous stamina, and a ferocious will to win. "I hate losing" was his simple motto.
