

Oscar Obert* – 1972

Oscar Obert was the essence of aggression on any handball court in singles and doubles.

Constantly driving and shooting with incredible power with either hand, he was masterful in 4-wall, 3-wall, and, especially, in 1-wall, where his roots developed. Oscar probably hit more killers in one handball game than most players hit in a month! Always superbly fit, he was all business on the field of battle.
