

Anthony Barone

Tony Barone had many successes in doubles playing with his brother, Wayne. But he was an equally successful singles player.

In 1991 Tony won the Masters International (for 40+ year old players) in south Florida. Behind 2-15 in game one, he came back and won. He repeated the pattern in game 2 for the title. His opponent left him with a statement he never forgot: "You New Yorkers never know when you're beat!"

As luck would have it, that same year he played that man again on his way to winning the NYAC Invitational.
